Highly accomplished Executive Leader with over 20 years of experience driving customer experience (CX) transformation, operational excellence, and strategic business improvement within the IT, Banking, and Payments/Fintech sectors. As the Customer Experience and Business Improvement Executive at XLink Communications, I am responsible for enhancing customer journeys, optimizing workflows, and leading critical process improvement initiatives leveraging Lean and Six Sigma principles.

Concurrently, as CEO & Founder of Goldkey Technologies, I have successfully built and scaled a dynamic consulting and software development firm. My expertise is underscored by a proven track record in:

Strategic CX & Process Optimization: Designing and implementing robust CX strategies, leading large-scale business process re-engineering efforts, and achieving significant efficiencies.

Payments & Acquiring Subject Matter Expertise: Providing critical insights to product development and sales teams, translating complex payment solutions into clear value propositions, and influencing market strategy.

Executive Leadership & Digital Transformation: Guiding cross-functional teams, managing multi-million rand P&Ls, and spearheading digital innovation to drive sustainable growth.

Project & Program Management: Overseeing complex strategic projects from conception to successful delivery, ensuring adherence to scope, budget, and timelines.

I am passionate about leveraging technology and strategic vision to solve intricate business challenges, optimize performance, and create lasting value for organizations.
